"MISSION SUMMARY"

MISSION NO. 43
24TH. MARCH, 1944

94TH. COMBAT BOMB WING
401ST. BOMBARDMENT GROUP (H)

R E P O R T O F O P E R A T I O N A L
D A Y

MISSION No. **43**

Date: **24 MAR. 44**

TO: **SCHWEINFURT, GER.**

OFFICE OF THE INTELLIGENCE OFFICER
STATION 128 - APO 557
U. S. ARMY

D-3-5

24 March 1944.

SUBJECT: Crew Comments and Suggestions, Mission of 24 March 1944.

TO : COMMANDING OFFICER, Station 128, APO 557, U. S. Army.

1. Major Edwin W. Brown, who lead the 94th Combat Wing, praised the effectiveness of the friendly fighter escort; his opinion was shared by all airplane commanders and crew members.

2. Lt. Warren (NMI) Gulula (Navigator) A/C 1087, stated that the mission was well planned and excellently run from the stand-point of navigation; this comment was seconded by Lt. Kenneth C. Wells (Pilot) A/C 1087.

3. Lt. Donald E. Jones (Pilot) A/C 1508, commented that the leader of the 94th Combat Wing did a very excellent job.

4. Lt. Benjamin H. Johnson, Jr. (Pilot) A/C 9945, commented that some interrogators appear to be in a hurry and don't pay enough attention to crew members' observations; he felt that by making light of what crew members report by way of observations would have the tendency to defeat efforts to encourage observations.

5. Adverse criticism of the breakfast served by the combat mess, particularly the sausages, was made by the following: Lt. Edward T. O'Neil (Co-Pilot) A/C 1508, the crew of Lt. Robert O. Stine (Pilot) A/C 9847, the crew of Stuart E. Smith (Pilot) A/C 0050 and the crew of Lt. Gaston M. Fox (Pilot) A/C 1891.

6. T/Sgt. Nicholas D. Schoenberger (ROG) A/C 1508, stated that handling chaff and taking pictures gives the ROG too much to do at one time.

7. Lt. Robert P. Schleiper (Navigator) A/C 2008, thinks flashlights should be issued to crew.

8. Lt. Victor S. Reese (Navigator) A/C 0050, shared the opinion of Lt. Gulula, item #2 above, concerning navigation.

Lt. D. V. McElhenny
for W. B. FRY,
Major, A. C.,
Group 8-2 Officer.

OFFICE OF THE INTELLIGENCE OFFICER
STATION 128 - APO 857
U. S. ARMY

D-G-5

24 March 1944.

SUBJECT: Supplement to "Crew Comments and Suggestions", Mission of 24 March 44.
TO : COMMANDING OFFICER, Station 128 - APO 857, U. S. Army.

1. Several crew members report top turret gunner in lead A/C fired at P-51 escort. Major Edwin W. Brown, who led the 94th Combat Wing, stated at interrogation that tactics employed by one ship of this escort very much resembled those of a German single engine fighter, inasmuch as the P-51 pointed his nose at the formation and came in very close.

2. Lt. George R. Van Dyke (Navigator) A/C 9993, stated that chaff discharged by Combat Wing which preceded the 94th Combat Wing over the target was apparently very effective in deflecting fire put up by flak installations; a large number of flak bursts in the Schweinfurt area were concentrated to the South and East of the attacking force, at an altitude several thousand feet lower than that at which the formation was flying.

W. B. FRY,
Major, A. C.,
Group S-2 Officer.

26 March 1944.

SUBJECT: Comments of Crews Participating in Mission to Watten, France.
26 March 1944.

TO : Commanding Officer, Station 128, APO 557, U S Army.

1. Lt Majewski, Bombardier and Lt Chmura, Copilot of A/C 9873 make mention that there was too little of evasive action. What little evasive action there was, was too violent. Both officers believe navigation lead was poor.
2. Lt Reese, Navigator, A/C 9873 says there is no first aid kit in cockpit and nose. Suggest that a check be made.
3. Lt Rowe, Bombardier and Lt Eckert, Copilot, A/C 1598 say our formation should have been stepped up when bombing by squadrons, the effect of which would be to avoid prop wash of planes ahead and also when discharging chaff.
4. Lt Knight, Pilot of A/C 1933 says that abbreviated briefing for this mission was poor and asks why briefed course wasn't followed.
5. Capt Hinkle, Copilot and Group Leader, A/C 1081 commented that the Group or Combat Wing Leader should be instructed that he may use a **certain** amount of discretion in deviating from a briefed route which passes over flak installations. He also comments that breakfast was good this morning.

6163

W. B. FRY,
Major, AC
Group S-2.

Target, Schweinfurt, Germany

1. Concentrated here are a little more than 50% of the total Axis production of ball and roller bearings of all types. This city ranks as the most important industrial centre of its size in Germany and Occupied Europe. If knocked out completely, it can become the most vital bottleneck in Germany's armament and A/C industries.
2. The specific target is the ball-bearing works of Kugelfischer and is comprised of 5 separate plants, all situated on the N bank of the River Main and in the SW end of town.

2 parts-your target is one of them-are N, while the remaining 3 are S of, the town's large marshalling yard. 2 of these targets lay in a sparsely built up area, fairly closely grouped, while the 5th. is in a densely built up section.

4 of the plants together constitute the most important center of this industry in Germany. ~~YOUR MPI IS A LARGE MACHINE SHOP WITH A # 1 PRIORITY AND APPEARS TO BE THE MOST IMPORTANT FROM A STRATEGIC STANDPOINT.~~
Your target produces a wide range of bearings and is the most important of the entire target group. It was estimated in Jan. to be producing about 24% of the total Axis requirements. This plant employs about 11,000 persons and covers an area of 50 acres.

Your MPI is a large machine shop with a # 1 priority and appears to be the most important from a strategic standpoint.

3. All CBW's in the 1st. Div. have been assigned the same target and MPI. If the first wing ever gets this then you will hit on another building just below the assigned MPI. If they don't hit it, you and each succeeding W will try for it.

IN ANY EVENT, IT IS IMPERATIVE THAT THE FIRST BUILDING BE DESTROYED.

Considerable quantities of oil and other inflammable materials are used in the mfg. of ball bearings and if these stores are hit, it will certainly help the damage done by bombing.

This same target was hit by our forces last Aug. and Oct. and again by you in Feb. In fact the night of the day you hit it, the RAF plastered it too. However, the Jerries have shown extraordinary powers of recovery and reconstruction and ~~this~~ ~~target~~ ~~that~~ **MUST BE WIPED OUT.** You'll have the stuff to do it. You'll be carrying 1,000 pounders and dropping from a height of 20,000'.

3. The 2nd. Div. will be attacking in France.
4. The secondary target for all CBW's is the rubber plant at HANAU.
5. The last resort is any military installation in Germany positively identified that will not disrupt fighter support.

8. Flak and flak map ^{1) Cluff. -}
 2) min. in Flak.

9. Show route on Map 1:250,000

10 Show Nite Target chart for P/T

- a. No snow expected on the ground in this area.
- b. Smoke screens can be expected, but to our knowledge they are located on the S and SW edge of town and the wind is from the N which should leave your target clear.

11. Show photo of P/T

12. Show ~~XXXXX~~ Goerling perspective.

13. Show photo of S/T

14. Special instructions.

1. Some German fighters have been reported as having their ~~wingtips and fins~~ fins and rudders painted white. This is believed to denote Formation leaders or experienced pilots.

2. If strange B-17's try to get into your formation, try to get any markings from him.

3. If any one lands away, be sure to call in thru Flight Control and particularly to give the condition of the crew, whether or not you went over the target, and the disposal of bombs.

4. P/W --

If forced down in target area the best objectives are to try for Belgium and Holland. These frontiers are not closely guarded and there is no wire at the borders. Don't try to cross into France thru Alsace/Lorraine for this is a heavily fortified area, well guarded for a zone 3 miles deep, along the border. Don't try to cross at Luxembourg either, for it is thickly populated with Germans.

Don't approach native Germans for help, but imported foreign laborers might be of some assistance. Hide by day and travel by nite, and be sure to get a supply of water at the first opportunity.

If directly around the target area, you might even try for Swit.-the distance is about the same. If you ~~don't~~ don't cross ~~the border~~ near the lake for the N edge is all German. Cross the border a little S of the Lake itself. The Swiss guards are helpful and friendly.. If caught here, state you are an escaper and ask for the Amer. consul.

5. Read Swit. SOP

6. Clean pockets-have identify photos, dog tags and GI shoes.

7. DON'T MENTION THE TARGET.
