SUBJECT: Crew Comments and Suggestions for Mission 27 April 1944.

TO : Commanding Officer, Station 128, APO 557, US Army.  
(Through Lt Col Brooks and Lt Col Voorhees)

1. Lt Benjamin H. Johnson Jr. pilot A/C 2393 complained that A/C #4 and A/C #6 of lead squadron were lagging behind, making it difficult for A/C #2 to stay in formation; this airplane Commander also stated that A/C #5 was flying in #7 position.

2. S/Sgt D.E. Schaefer, BTG, A/C 2393, stated that P-51 escort flew right through the Wing formation and that a formation of friendly escort hung in the sun for a long time, making it difficult for gunners to identify them.

3. Lt Lewis S. Jaffe, Na. A/C 0001, praised the navigation done by the Group and Wing lead, as did Lt Charles P. Hess, pilot A/C 1557. Lt Jaffe criticised the fact that the formation set down over splasher #10 which was not listed on flimsy.

4. Lt John J. Connolly, pilot A/C 9873, stated that the Low Squadron Leader continually S-ed around within the Group formation.

5. Lt William J. Kelly, pilot A/C 7487, does not like to make 360° turns over target.

6. Lt Paul F. Scharff, pilot A/C 1226, suggests that skymarkers be set to detonate 500 feet lower, in as much as fluid splatters plexi-glass nose and hinders visibility.

7. T/Sgt Marion B. Spivey, ROG A/C 7039, believes radio logs should be picked up at interrogation, saving radio operator from making a special trip to Communications Building.

8. S/Sgt Eugene D. Frederick suggests a cloth tab be sewn on vest of flak suit in order that oxygen hose may be clipped to it.

9. Complaints were made that transportation to interrogation was unduly delayed, by the crew of Lt Clifford A. Lincoln, pilot A/C 1315, the crew of Lt John R. Tanner, pilot A/C 1662, the crew of Lt Charles F. Hess, pilot A/C 1557, and the crew of Lt Robert L. Fissette, pilot A/C 1863.
